Braun Intertec

Assisting public and private organizations and property owners with site evaluations, site preparation recommendations and construction support services has been at the heart of Braun Intertec for five decades. Our multi-disciplinary approach and wealth of resources enable us to find cost-effective solutions while providing you with timely, quality service. With more than 400 employees representing multiple technical disciplines, we have been a proven industry leader of environmental consulting, geotechnical engineering, testing, special inspections, and facilities evaluation services.

Our approach is based on creative problem solving, proactive planning and comprehensive support from Braun Intertec experts. We can provide you with a mix of services to meet your needs in the most cost effective, efficient and timely manner. The rigorous quality assurance/quality control programs and numerous national accreditations at Braun Intertec support our staff's expertise.

When our doors first opened in 1957, the company was family owned. Today, it's still family owned, but by a different family – our employees. Our success is measured by delivering successful projects to our clients; consistently providing valued services, on-time, and on budget.
